K – 8 COURSE OFFERINGS

[378720](#) ARKANSAS HISTORY 7-8

[ADE CURRICULUM FRAMEWORKS](#)

TERM: FALL & SPRING CREDIT: .5

Arkansas History Grades 7-8 is an in-depth and rigorous study of civics/government, economics, geography, and history of the state. Throughout the course, students will develop and apply disciplinary literacy skills: reading, writing, speaking, and listening. As students seek answers to compelling and supporting questions, they will examine a variety of primary and secondary sources and communicate responses in multiple ways, including oral, visual, and written forms.

[388110](#) LANGUAGE ARTS GRADE 8

[ADE CURRICULUM FRAMEWORKS](#)

TERM: YEAR CREDIT: 1

The English classroom focuses on reading and analyzing literature and literary nonfiction, studying the English language, and writing about related topics. A separate document, the Arkansas Disciplinary Literacy Standards, has been created to address the unique literacy needs in other content areas.

[388310](#) MATHEMATICS GRADE 8

[ADE CURRICULUM FRAMEWORKS](#)

TERM: YEAR CREDIT: 1

This mathematics course is for students ready to enroll in 8th grade Mathematics and is based on the Arkansas Mathematics Standards for 6-8. Emphasis is given on expressions and equations, functions, geometry, and statistics and probability.

[388560](#) GENERAL MUSIC GRADE 8

[ADE CURRICULUM FRAMEWORKS](#)

TERM: YEAR CREDIT: 1

This course is for 8th grade students and is based on the Arkansas General Music K-8 Fine Arts Curriculum Standards. Students will be engaged in creating, performing, responding, and connecting with music.

VISUAL ART-GRADES K – 8

[ADE CURRICULUM FRAMEWORKS](#)

TERM: YEAR CREDIT: 1

The Arkansas Visual Art K-8 Framework provides a standards-based, rigorous approach to teaching visual art. Arkansas students will be given the opportunity to delve deeply into visual art, building upon earlier learning expectations. Students will explore the elements of art and principles of design through 2-dimensional and 3-dimensional art projects, as well as historical artworks and artists. Middle school students will participate in online discussions to critique and learn about famous artworks. The framework supports multiple modes of learning and assessment for the diverse needs of students.

Due to the high demand for the K-8 Visual Arts classes, schools are advised to contact the Virtual Arkansas Central Office to discuss class periods prior to registering students. Also, students in grades 7 and 8 must have a computer available during the class period to complete the course requirements.

ADVANCED PLACEMENT

[517030](#) AP ENGLISH LANGUAGE AND COMPOSITION

MAY BE OFFERED FOR WEIGHTED CREDIT

TERM: YEAR CREDIT: 1

This AP course in English Language and Composition engages students in becoming skilled readers of NONFICTION prose written in a variety of periods, disciplines, and rhetorical contexts and in becoming skilled writers who compose for a variety of purposes. This course emphasizes the development and use of critical thinking skills. Both

their writing and their reading should make students aware of the interactions among a writer's purposes, audience expectations, and subjects as well as the way generic conventions and the resources of language contribute to effectiveness in writing. The college composition course for which the AP English Language and Composition course substitutes is one of the most varied in the curriculum.

517040 AP ENGLISH LITERATURE AND COMPOSITION MAY BE OFFERED FOR WEIGHTED CREDIT

TERM: YEAR CREDIT: 1

This course is designed to comply with the curricular requirements described in the AP English Course Description. This course emphasizes the development and use of critical thinking skills. Students will be reading at an accelerated pace and writing on a weekly basis. American and British poetry and literature will be the emphasis of study throughout the course. Students must be willing to sacrifice several hours a week to this course in order to succeed. This course is designed to introduce students to the rigor and expectations of the college level English course.

523030 AP ENVIRONMENTAL SCIENCE MAY BE OFFERED FOR WEIGHTED CREDIT

TERM: YEAR CREDIT: 1

The goal of the AP Environmental Science course is to provide students with the scientific principles, concepts, and methodologies required to understand the interrelationships of the natural world, to identify and analyze environmental problems both natural and human-made, to evaluate the relative risks associated with these problems, and to examine alternative solutions for resolving or preventing them. Students will be reading at an accelerated pace and writing formal lab reports on a weekly basis. Environmental science is interdisciplinary; it embraces a wide variety of topics from different areas of study. Yet there are several major unifying constructs, or themes, that cut across the many topics included in the study of environmental science.

534040 AP CALCULUS AB MAY BE OFFERED FOR WEIGHTED CREDIT

TERM: YEAR CREDIT: 1

This course will focus on Functions, Graphs, and Limits; Asymptotic and unbounded behavior; Continuity as a property of functions; the concept of the derivative; Derivative at a point; Derivative as a function; Second derivatives; Applications of derivatives; Computation of derivatives; Interpretations and properties of definite integrals; Applications of integrals; Fundamental Theorem of Calculus; Techniques of anti-differentiation; Applications of anti-differentiation; Numerical approximations to definite integrals. This course is considered a fifth high school math course and should be taken after successful completion of Algebra I, Geometry, Algebra II and Pre-Calculus with Trigonometry.

565010 AP COMPUTER SCIENCE PRINCIPLES MAY BE OFFERED FOR WEIGHTED CREDIT

ADVANCED HS CS LEVEL 1

TERM: FALL CREDIT: .5

AP Computer Science Principles offers a multidisciplinary approach to teaching the underlying principles of computation. The course will introduce students to the creative aspects of programming, abstractions, algorithms, large data sets, the Internet, cybersecurity concerns, and computing impacts. AP Computer Science Principles will give students the opportunity to use technology to address real-world problems and build relevant solutions. Together, these aspects of the course make up a rigorous and rich curriculum that aims to broaden participation in computer science. **Prerequisites:** None

565020 AP COMPUTER SCIENCE PRINCIPLES MAY BE OFFERED FOR WEIGHTED CREDIT

ADVANCED HS CS LEVEL 2

TERM: SPRING CREDIT: .5

AP Computer Science Principles offers a multidisciplinary approach to teaching the underlying principles of computation. The course will introduce students to the creative aspects of programming, abstractions, algorithms, large data sets, the Internet, cybersecurity concerns, and computing impacts. AP Computer Science Principles will give students the opportunity to use technology to address real-world problems and build relevant solutions. Together, these aspects of the course make up a rigorous and rich curriculum that aims to broaden participation in computer science. **Prerequisites:** None

565110 AP COMPUTER SCIENCE A MAY BE OFFERED FOR WEIGHTED CREDIT

ADVANCED HS CS LEVEL 1

TERM: FALL CREDIT: .5

The goals of the AP Computer Science A course are comparable to those in the introductory course for computer science majors offered in many college and university computer science departments. It is not expected that all students in the AP Computer Science A course will major in computer science at the university level. The AP Computer Science A course is intended to serve both as an introductory course for computer science majors and as a course for people who will major in other disciplines and want to be informed citizens in today's technological society.

565120 AP COMPUTER SCIENCE A MAY BE OFFERED FOR WEIGHTED CREDIT **ADVANCED HS CS LEVEL 2** **TERM: SPRING CREDIT: .5**

The goals of the AP Computer Science A course are comparable to those in the introductory course for computer science majors offered in many college and university computer science departments. It is not expected that all students in the AP Computer Science A course will major in computer science at the university level. The AP Computer Science A course is intended to serve both as an introductory course for computer science majors and as a course for people who will major in other disciplines and want to be informed citizens in today's technological society.

570020 AP UNITED STATES HISTORY MAY BE OFFERED FOR WEIGHTED CREDIT **TERM: YEAR CREDIT: 1**

This challenging course is designed to provide a college-level experience and prepare students for the AP exam in early May. Over two 18 week semesters, the students are engaged in a wide variety of activities, with substantial emphasis on interpreting documents, writing analytical essays, and mastering factual content. Woven into the chronology of the course are the key themes of American History. Issues of American identity, diversity, religion and culture are examined. Economic transformations, the development of political institutions and reform movements are evaluated. War, slavery, and demographic changes are assessed. Globalization and environmental issues are analyzed. These themes appear consistently in the course as the student journeys through broader course topics such as colonial and antebellum life, civil war and reconstruction, the gilded age and on to modern America.

571020 AP WORLD HISTORY MAY BE OFFERED FOR WEIGHTED CREDIT **TERM: YEAR CREDIT: 1**

The AP World History course will develop students' knowledge and understanding of global historical events, processes and interactions between civilizations and societies. Students will prepare for the rigors of college coursework, and the AP World History Exam. The AP World History course uses a skills-based thematic approach organized by historical periods with reoccurring themes. Historical thinking skills are taught throughout the course using the context and content of world history themes and overlapping, approximate time periods.

572040 ADE ENHANCED AP U. S. GOVERNMENT & POLITICS [ADE CURRICULUM FRAMEWORKS](#) MAY BE OFFERED FOR WEIGHTED CREDIT **TERM: YEAR CREDIT: 1**

ADE Enhanced AP United States Government and Politics includes both the study of general concepts used to interpret United States politics and the analysis of specific examples. It also requires familiarity with the various institutions, groups, beliefs, and ideas that constitute US politics. Students will become acquainted with the variety of theoretical perspectives and explanations for various behaviors and outcomes as they study the following topics: constitutional underpinnings of United States government, political beliefs and behaviors, political parties, interest groups, and mass media, institutions of national government, public policy, civil rights and civil liberties, state and local government, and Arkansas laws affecting juveniles. The course is intended to provide the scope and academic challenge expected at the college level. It prepares students to take the AP United States Government and Politics exam. This course stresses critical thinking and applications, textbook readings, projects, and use of performance-based/open-ended assessments with rubrics.

Students who successfully complete the ADE Enhanced AP United States Government and Politics course may receive academic credit for Civics in meeting state graduation requirements.

COMPUTER SCIENCE

465010 COMPUTER SCIENCE WITH PROGRAMMING/CODING EMPHASIS (LEVEL I) [ADE CURRICULUM FRAMEWORKS](#)
TERM: FALL & SPRING CREDIT: .5

Introduction to Computer Science offers students the opportunity to explore three distinct areas in computer science: programming, networking, and information security. Students will develop knowledge and skills in computational thinking and problem solving; data and information; algorithms and programs; computers and communications; and community, global, and ethical impacts. Emphasis is placed on making real-world connections between students, course topics, and programming in the field of computer science. **Prerequisites:** None

**465020 COMPUTER SCIENCE WITH PROGRAMMING/CODING EMPHASIS (LEVEL II)**[ADE CURRICULUM FRAMEWORKS](#)**TERM: FALL & SPRING CREDIT: .5**

This course expands upon the concepts covered in the Introduction to Computer Science (Level 1) course and places significant emphasis on developing proficiency in computer programming/coding. Students will learn to analyze problems and develop solutions to those problems in a collaborative learning environment. Multiple technologies will be engaged in order to equip students with fluencies that will enable them to adapt to the constantly-changing field of computer science. **Prerequisites:** None

465210 COMPUTER SCIENCE WITH INFORMATION SECURITY EMPHASIS (LEVEL I)[ADE CURRICULUM FRAMEWORKS](#)**TERM: FALL & SPRING CREDIT: .5**

Introduction to Computer Science offers students the opportunity to explore three distinct areas in computer science: programming, networking, and information security. Students will develop knowledge and skills in computational thinking and problem solving; data and information; algorithms and programs; computers and communications; and community, global, and ethical impacts. Emphasis is placed on making real-world connections between students, course topics, and information security in the field of computer science. **Prerequisites:** None

465220 COMPUTER SCIENCE WITH INFORMATION SECURITY EMPHASIS (LEVEL II)[ADE CURRICULUM FRAMEWORKS](#)**TERM: FALL & SPRING CREDIT: .5**

This course expands upon the concepts covered in the Introduction to Computer Science (Level 1) course and places significant emphasis on developing proficiency in information security. Students will learn to analyze problems and develop solutions to those problems in a collaborative learning environment. Multiple technologies will be engaged in order to equip students with fluencies that will enable them to adapt to the constantly-changing field of computer science. **Prerequisites:** None

ELECTIVES**696000 ACT PREP ENGLISH READING AND GRAMMAR****TERM: FALL & SPRING CREDIT: .5**

ACT Prep English and Reading is designed as a graded course with its goal being for all students to be unconditionally admitted to their college or university of choice. This course is recommended for high school sophomores, juniors, and seniors. The purpose of this course is to familiarize students with the structure of the ACT College Entrance Exam through examining the various questions types on the exam and through providing a refresher of skills in both English and Reading.

To receive the ½ unit of credit, a student must remain in the course for the full semester. Students may earn up to 1 unit by completing all four focus areas, either in one semester or during the full academic year. This course is designed to comply with all the curricular requirements of the American College Testing Program (ACT). **ABOVE STATE REQUIREMENTS.**

696000 ACT PREP MATH AND SCIENCE**TERM: FALL & SPRING CREDIT: .5**

ACT Prep is designed as a graded course with its goal being for all students to be unconditionally admitted to their college or university of choice. The Math portion is designed to measure a wide range of abilities and knowledge of practical problems from the six Math content areas specifically tested on the ACT. The Science Reasoning portion of the course will provide targeted practice for gaining skill-sets to excel in text-dissection, data analysis, and scientific reasoning seen on the ACT.

Students enrolled in the Mathematics or the Scientific Reasoning and Data Analysis focus area will rotate to the other focus area at the end of the nine-week session. To receive the ½ unit of credit, a student must remain in the course for the full semester. Students may earn up to 1 unit by completing all four focus areas, either in one semester or during the full academic year. The course is designed to comply with all the curricular requirements of the American College Testing Program (ACT). **ABOVE STATE REQUIREMENTS**

ENGLISH LANGUAGE ARTS

[410000](#) ENGLISH 9

[ADE CURRICULUM FRAMEWORKS](#)

TERM: YEAR CREDIT: 1

Students study various forms of literature that deal with the universal problems of human nature. Students develop skills in reading, writing, analysis, critical thinking, communication, and organization while building understanding of vocabulary and literary terminology. The course introduces students to the requirements and expectations of essay writing and offers the opportunity to write in various text types and for a variety of purposes.

[411000](#) ENGLISH 10

[ADE CURRICULUM FRAMEWORKS](#)

TERM: YEAR CREDIT: 1

This course emphasizes the development of the core language arts components of reading, writing, speaking, and listening. Students analyze classic works of literature including plays, non-fiction, poetry, and short stories to understand the contexts in which the works were written. Class activities are designed to help students master the skills needed to meet state standards as well as to be successful in their future endeavors.

[412000](#) ENGLISH 11

[ADE CURRICULUM FRAMEWORKS](#)

TERM: YEAR CREDIT: 1

In English 11 students will analyze works of poetry, short stories, drama, and speech from pre-colonial period to the present, emphasizing the philosophical, historical, political, and cultural movements of those eras. Students will study literary terminology as well as conventions of fiction and nonfiction and produce MLA-formatted works using research skills gained in this course.

[413000](#) ENGLISH 12

[ADE CURRICULUM FRAMEWORKS](#)

TERM: YEAR CREDIT: 1

This course is broken into four units of thematic study. Each unit allows students to analyze the political, social, economic, and cultural messages of the time as well as the relevance of the literary works to the world students live in today. As they read, students consider the work's structure, style, and themes as well as the use of elements such as figurative language, imagery, symbolism, and tone. Students will write in several forms about a variety of subjects in contexts designed to help them become increasingly aware of themselves as writers and of the techniques employed by the writers they read. Students will gain research skills, and in particular, the ability to evaluate, use, and cite primary and secondary sources. Students will cite sources using MLA Format.

[414000](#) ORAL COMMUNICATION

[ADE CURRICULUM FRAMEWORKS](#)

TERM: FALL & SPRING CREDIT: .5

In the one-semester Oral Communication course, students will gather an understanding of effective communication while speaking, listening, and responding. Students will practice communication competencies, effective intrapersonal and interpersonal communication, as well as deliver a variety of speeches. Students will also learn concepts related to responsible social media usage, communication barriers, mass media, conflict resolution, leadership styles, business etiquette, and interviews. Students will participate in debate and perform oral readings.

[415000](#) JOURNALISM I

[ADE CURRICULUM FRAMEWORKS](#)

TERM: YEAR CREDIT: 1

Understanding the role of the free press in America helps us to be better informed and more able to analyze media. In this course, students will explore the history of journalism in the United States from its inception in the colonies and its key role in the first amendment, all the way up to present day issues regarding "right to know" and the changing landscape of journalistic media in the 21st century. Students will acquire the skills and information needed to actively participate in the consumption, analysis, and creation of news media and will have the opportunity to investigate the constantly evolving career opportunities within the field of journalism.

[511020](#) ENGLISH 10 WITH EMBEDDED ORAL COMMUNICATION

TERM: YEAR CREDIT: 1

This course emphasizes active reading and critical thinking of literary and informational texts. Students will participate in a variety of reading, writing, speaking and listening activities designed to develop and extend their comprehension of vocabulary, grammar, mechanics, literal and symbolic meaning of texts; and gain an understanding of the relationships of these texts and the world around them. Students will learn the dynamics of effective communication when speaking, listening, and responding. Students will

express ideas and present information in a variety of communication tasks including small group discussion, formal and informal presentations, and oral interpretation of literature. This course is aligned to the ELA CCSS and Oral Communication Frameworks and fulfills 1 unit of ELA and .5 unit of Oral Communication.

FINE ARTS

450000 VISUAL ART I

ADE CURRICULUM FRAMEWORKS

TERM: YEAR CREDIT: 1

Visual Art I is a two-semester course designed to teach students to apply the elements of art and the principles of design to the creative process. Students are expected to use a variety of media, techniques, processes and tools to compose original works of art that demonstrate understanding of the elements of art and principles of design, awareness of aesthetic concerns and the ability to communicate ideas through artwork. Students will critique and reflect on their artwork and the art of others. Students will exhibit artwork and will assemble portfolios that demonstrate successful completion of Visual Art I student learning expectations. Students may not be enrolled in the second semester of Visual Art I unless they are transferring from another district and had the first semester of Visual Art I at the prior district.

453100 VISUAL ART APPRECIATION

ADE CURRICULUM FRAMEWORKS

TERM: FALL & SPRING CREDIT: .5

Visual Art Appreciation is a one-semester course designed to develop perceptual awareness and aesthetic sensitivity, as well as a foundation for a lifelong relationship with the arts. Students will learn the elements of art and principles of design; explore the basic processes, materials, and inherent qualities of visual art; examine a broad range of methods; conduct critical analyses of the creative processes involved in the various art forms; and reflect on the connections between society and visual art. The Standards for Accreditation require schools to offer a one-half unit of survey of fine arts or one-half unit of an advanced art or advanced music course. Visual Art Appreciation may be used to fulfill this requirement. Visual Art Appreciation also fulfills the requirement for one-half unit of fine arts for graduation. The course does not require Arkansas Department of Education approval.

550010 ADE APPROVED FINE ARTS - ART + PROCESS: CREATING A BODY OF WORK

TERM: FALL CREDIT: .5

What does it take to make a body or portfolio of work, or a series of artworks that are coherent and work together? The short answer is: process. Students will explore the longer answer in this semester-long studio art course. Each week students will study two different contemporary artists who were part of the State of the Art: Discovering American Art Now exhibition at Crystal Bridges Museum of American Art. This exhibit that presents illustrated the best of what is happening with diverse artists across the country. Students will look at these artists' work and learn about the techniques, processes, and concepts to understand and be inspired by their thinking. In the first half of the course, students will complete experimental art projects influenced by these artists. These projects will help students find an idea to develop into a body of work in the last half of the course. Each week students will watch videos, sketch ideas, create art, present their work, and participate in a supportive class critique. This semester long process leads to the culminating event—hanging and exhibiting the body of work in the gallery of a 3D online replica of the museum as well as the creation of an online portfolio to use for college applications, marketing, and more. **ABOVE STATE REQUIREMENTS.**

553010 ADE APPROVED SURVEY OF FINE ARTS – ART APPRECIATION AND AMERICAN IDENTITY

TERM: SPRING CREDIT: 5

How is the identity of America represented in the arts? Is it a more accurate and diverse reflection than you would find in a textbook? How has the identity of America changed throughout history? All of these questions and more will be explored in this course as you learn how to discuss and interpret paintings from the Crystal Bridges Museum of American Art and other museums throughout the country. Located in Bentonville, Arkansas, Crystal Bridges has over five centuries of American Art, from early portrayals of Native Americans to the contemporary art of today. Each of these artworks is a primary source and provides a unique perspective of American history and identity that you cannot find in a history textbook. You will learn how to discuss, interpret, and critique in this class while also learning about careers in museums. The final project will culminate in a virtual student created exhibition.

FOREIGN LANGUAGE

[440000 SPANISH I](#)

[ADE CURRICULUM FRAMEWORKS](#)

TERM: YEAR CREDIT: 1

Spanish I students learn how to greet people, introduce themselves, and speak about their home, family, school, and community. As students learn basic vocabulary and grammar skills, they expand on their knowledge and learn to communicate about more complex topics such as weather, sports, entertainment and leisure activities. The course introduces new words and phrases with pictures, audio clips, and examples. Students learn basic Spanish grammar to help them build fluency and understand the structure of the Spanish language.

[440020 SPANISH II](#)

[ADE CURRICULUM FRAMEWORKS](#)

TERM: YEAR CREDIT: 1

Spanish II is a year-long course. The purpose of the course is to strengthen Spanish listening, speaking, reading, and writing skills. Students will learn practical communication skills, based on the Can-Do statements published by the American Council on the Teaching of Foreign Languages (ACTFL). The goal of the course is for all students to reach the Novice-High level of proficiency in speaking, listening, reading, and writing. The course meets all requirements set forth in the Arkansas Modern Languages framework for second-year language.

In Spanish II, students will participate in a range of collaborative and communicative tasks. They will explore the Spanish language and also the history and cultures of Spanish-speaking countries. Students will contribute regularly to spoken and written discussions, and will provide feedback to one another on the insights that they share. Student progress will be marked on rubrics designed around the ACTFL proficiency standards for speaking and writing.

Prerequisite: You must have received credit for both semesters of Spanish I in order to enroll in Spanish II.

[440030 SPANISH III](#)

[ADE CURRICULUM FRAMEWORKS](#)

TERM: YEAR CREDIT: 1

Spanish III is an elective course that emphasizes oral and written expression to promote more proficient Spanish communication skills. It includes the review and expansion of essential Spanish grammar and vocabulary necessary for advanced communication. Cultural and literary selections are read and discussed. Compositions reflect comprehension and an increasing understanding of the complexities of the language and vocabulary. Aural comprehension is emphasized. The course is defined by the content standards of the Arkansas Foreign Language Curriculum Framework for Spanish III and includes applications, problem solving, higher-order thinking skills, and performance-based, open-ended assessments with rubrics.

Prerequisite: You must have received credit for both semesters of Spanish II in order to enroll in Spanish III.

[441000 FRENCH I](#)

[ADE CURRICULUM FRAMEWORKS](#)

TERM: YEAR CREDIT: 1

Students will begin to develop the skills needed to communicate effectively in the French language and develop an in-depth awareness of the various French-speaking cultures. Upon successful completion of this course students will be able to understand elementary spoken French; use vocabulary for practical, everyday use; strive to speak with comprehensible pronunciation; read and write simple French sentences; and discuss and demonstrate appreciation for Francophone cultures.

[441010 FRENCH II](#)

[ADE CURRICULUM FRAMEWORKS](#)

TERM: YEAR CREDIT: 1

In this course, students will build on skills developed in French I and continue to work on communicating effectively in the French language and increasing awareness of French-speaking cultures. Upon successful completion of this course, students will be able to understand spoken French at the novice level; use vocabulary for practical, everyday use; speak with comprehensible pronunciation; read and write simple French paragraphs; discuss and demonstrate an appreciation for Francophone cultures.

Prerequisite: You must have received credit for both semesters of French I in order to enroll in French II.

[442000 GERMAN I](#)

[ADE CURRICULUM FRAMEWORKS](#)

TERM: YEAR CREDIT: 1

German I stresses correct pronunciation, aural comprehension, and simple speaking ability. As communication skills develop, the course includes additional vocabulary and

basic grammar necessary for limited reading and writing. The course is defined by the content standards of the Arkansas Foreign Language Curriculum Framework and includes applications, problem solving, higher-order thinking skills, and performance-based, open-ended assessments with rubrics.

442010 GERMAN II**[ADE CURRICULUM FRAMEWORKS](#)****TERM: YEAR CREDIT: 1**

German II develops and expands the fundamental skills introduced in German I. Speaking exercises facilitate oral communication. Additional vocabulary and grammar are introduced to lead to more advanced reading and writing. Authentic reading materials and audio-video recordings enrich instruction. The course is defined by the content standards of the Arkansas Foreign Language Curriculum Framework and includes applications, problem solving, higher-order thinking skills, and performance-based, open-ended assessments with rubrics. **Prerequisite:** You must have received credit for both semesters of German I in order to enroll in German II.

449010 AMERICAN SIGN LANGUAGE I**[ADE CURRICULUM FRAMEWORKS](#)****TERM: YEAR CREDIT: 1**

ASL I provides an introduction to the basic skills in production and comprehension of American Sign Language. The course focuses on the alphabet, numbers, fingerspelling, vocabulary, and grammar which will lead to increased communicative and cultural proficiency in ASL. The culture, history, current events and traditions of the Deaf community are introduced through selected readings, visual recordings, and other authentic materials. Visually attending, signing, individual feedback, and group activities are designed to instruct, reinforce, connect language skills, and develop signacy. This course will include applications, problem solving, higher-order thinking skills, and performance-based and project-based assessments. The goal is to be able to carry on a short conversation with another student by the end of the course. Also, students will develop the practical skills and knowledge necessary for basic interactions within the deaf community.

449020 AMERICAN SIGN LANGUAGE II (PREREQUISITE)**[ADE CURRICULUM FRAMEWORKS](#)****TERM: YEAR CREDIT: 1**

Students will build upon the skills that were taught in ASL I and continue to increase their ability to comprehend and respond with increasing accuracy to expressive American Sign Language. ASL II provides basic instruction in production and comprehension, vocabulary, and grammar, and eventually leads to increased communicative and cultural proficiency in ASL. Emphasis is placed on the progressive development of expressive and receptive skills. The culture, history, current events, and traditions of the Deaf community are introduced on the appropriate level through selected readings, visual recordings, and other authentic materials. Visually attending, signing, individual feedback, interactive activities and group activities are designed to instruct, reinforce, connect language skills, and develop signacy. This course includes applications, problem solving, higher-order thinking skills, and performance-based and project-based assessments. Students will be able to converse with another student or individuals within the Deaf community with emphasis on appropriate language used in common communication settings.

Prerequisite: You must have received credit for both semesters of American Sign Language I in order to enroll in American Sign Language II.

MATHEMATICS**430000 ALGEBRA I****[ADE CURRICULUM FRAMEWORKS](#)****TERM: YEAR CREDIT: 1**

The skills you'll acquire in Algebra 1 contain the basic foundation students need for all high school math courses. Students develop algebraic fluency by learning the skills needed to solve equations and perform manipulations with numbers, variables, equations, and inequalities. Upon completion, students will possess the skills and strategies needed for solving real-world applications in multiple real-life scenarios from sports and travel to business and health.

431000 GEOMETRY**[ADE CURRICULUM FRAMEWORKS](#)****TERM: YEAR CREDIT: 1**

Geometry has been used by man since the beginning of time. The ancient pyramids are based on geometrical design. Geometry is everywhere, not just in pyramids. Engineers use geometry to build highways and bridges. Artists use geometry to create perspective in their paintings, and mapmakers help travelers find things using the points located on a geometric grid. Throughout this course, students travel a mathematical highway illuminated by spatial relationships, reasoning, connections, and problem solving. **Prerequisite:** Algebra I or Algebra AB

**432000 ALGEBRA II****[ADE CURRICULUM FRAMEWORKS](#)****TERM: YEAR CREDIT: 1**

This course builds on knowledge and skills gained from Algebra 1. Starting with a review of basic algebra, students will travel through quadratic equations, systems of equations, factoring, and polynomial functions. In the second segment, students will venture into the realms of radicals, rational equations, matrices, exponential and logarithmic relations, and land at sequences and series. This course allows students to learn while having fun. Interactive examples help guide students' journey through customized feedback and praise. **Prerequisite:** Algebra I

439050 ADVANCED TOPICS AND MODELING IN MATHEMATICS**[ADE CURRICULUM FRAMEWORKS](#)****TERM: YEAR CREDIT: 1**

This course builds on Algebra I, Geometry, and Algebra II to explore mathematical topics and relationships beyond Algebra II. Emphasis will be placed on applying modeling as the process of choosing and using appropriate mathematics and statistics to analyze, to better understand, and to improve decisions in analyzing empirical situations. Collection and use of student-generated data should be an aspect of the course. Students will represent and process their reasoning and conclusions numerically, graphically, symbolically, and verbally. Students will be expected to use technology, including graphing calculators, computers, and data gathering equipment throughout the course. **Prerequisites:** Algebra I, Geometry, Algebra II.

439120 QUANTITATIVE LITERACY**[ADE CURRICULUM FRAMEWORKS](#)****TERM: YEAR CREDIT: 1**

Quantitative literacy further builds on the knowledge and skills mastered in Algebra 1 by exploring and making connections between mathematical topics and the real world. Throughout the course, students will learn to make decisions, evaluate outcomes, and communicate results by choosing, modeling, and using appropriate mathematics and statistics. Students will represent and process their reasoning while gaining proficiency with mathematical technology. Emphasis is placed on areas of personal and business finance. **Prerequisite:** Algebra I

PHYSICAL EDUCATION AND HEALTH**480000 HEALTH AND WELLNESS****[ADE CURRICULUM FRAMEWORKS](#)****TERM: FALL & SPRING CREDIT: .5**

Each day, hundreds of decisions are made that have a huge impact on personal life. Making good decisions becomes easier for those who are well informed before making those decisions that affect their overall health. Being equipped with the correct information will empower student's real life issues dealing with human growth and development, disease prevention, community health access, forming healthy relationships, substance use and abuse, personal health/safety and nutrition and physical fitness. Being an overall healthy individual includes focusing on each component of health, knowing the facts, making good decisions, understanding the consequences and having the confidence to choose well.

SCIENCE**420000 BIOLOGY****[ADE CURRICULUM FRAMEWORKS](#)****TERM: YEAR CREDIT: 1**

The Biology course guides students through the study of living and non-living systems and how they interact with one another. This course will be a unique opportunity for students to successfully complete Biology in an on-line, interactive environment. Students explore the world they live in by posing questions and seeking answers through scientific inquiry. Discovery takes place through observation and data collection. The students will be introduced to the structure, function, diversity, and evolution of living matter. This is a course with real relevance. It encourages curiosity and provides opportunity for students to work on hands on lab activities and develop relationships through collaboratively learning. Engaging in the study of biological science broadens the picture of the world around us. This is a high school biology course designed to meet common core standards.

421000 CHEMISTRY**[ADE CURRICULUM FRAMEWORKS](#)****TERM: YEAR CREDIT: 1**

Chemistry is rigorous and students will be challenged. Students will need to have 6-10 hours per week designated for study to be successful. The course is an interactive, 21st century course. Topics include the composition, properties, and changes associated with matter and their applications. This course serves as a foundation for the study of

Chemistry at the university level. The utilization of scientific inquiry, web 2.0 tools, interactive experiences, higher order thinking, collaborative projects, real world application through labs and a variety of assessments all aid the student in ultimately demonstrating a vast understanding of the importance of Chemistry in the world around them; enabling them to apply these properties to their everyday lives.

422000 PHYSICS[ADE CURRICULUM FRAMEWORKS](#)**TERM: YEAR CREDIT: 1**

We stand on the shoulders of giants. Whether by observation, experimentation or brilliant insight, the progress of physics through the centuries has been advanced by scientific geniuses who wanted to know how things work. You will find out for yourself when you take this course and visit “Physics World.”

In each “Physics World” module, you will discover the contributions of geniuses like Galileo, Newton and Einstein. In their work, you will learn the concepts, theories and laws that govern the interaction of matter, energy and forces. From tiny atoms to galaxies with millions of stars, the universal laws of physics are there for you to observe and apply. Using laboratory activities, videos, software, and websites, you will follow in the footsteps of some of the world’s greatest thinkers. **Prerequisite:** Algebra II

423000 PHYSICAL SCIENCE[ADE CURRICULUM FRAMEWORKS](#)**TERM: YEAR CREDIT: 1**

This course is an interactive, 21st century course focusing on basic physics and chemistry. Topics include forces and motion, energy through waves, electricity and magnetism, the matter around us, chemical bonding and reactions. This course serves as a foundation for the study of the physical sciences. The utilization of scientific inquiry, web 2.0 tools, interactive experiences, higher order thinking, projects, real world application through labs and a variety of assessments all aid the student in ultimately demonstrating a vast understanding of the importance of the physical and chemical properties of the world around them; enabling them to apply these properties to their everyday lives.

424020 ENVIRONMENTAL SCIENCE[ADE CURRICULUM FRAMEWORKS](#)**TERM: YEAR CREDIT: 1**

The Environmental Science course investigates the role of humans in their environment. Students develop a knowledge base about their biological and physical environment. This information leads to exploration of human dependence on, technological control over, and interactions with the environment. Emphasis is on sustaining resources and making informed choices concerning environmental issues. Some of the topics addressed in this course include energy and nutrient cycling through ecosystems, the biomes of the world, water resources and pollution, air pollution, land use and urbanization, energy resources and use, waste management, population growth, biodiversity, and sustainability.

424030 ANATOMY/PHYSIOLOGY[ADE CURRICULUM FRAMEWORKS](#)**TERM: YEAR CREDIT: 1**

Human Anatomy and Physiology is a two-semester upper division life science course that examines the basic biological concepts of structure and function of the human body and the mechanisms of maintaining homeostasis within it. The course will concentrate on the major systems of the body: integumentary, skeletal, muscular, respiratory, circulatory, digestive, nervous, endocrine, lymphatic, urinary, and reproductive. As a prerequisite for future studies in the medical field, each unit includes a medical case study activity. Special topics include diseases & disorders, and a unit focused on Medical Professions Exploration.

SOCIAL STUDIES**470000 UNITED STATES HISTORY SINCE 1890**[ADE CURRICULUM FRAMEWORKS](#)**TERM: YEAR CREDIT: 1**

Students receive a strong foundation in United States History from pre-colonialism through the Progressive Era, allowing United States History since 1890 to focus in greater depth on the effects of changing culture, technology, world economy, and environment, as well as the impact of global conflicts on contemporary society in the United States. The desired outcome of this course is for students to develop an understanding of the cause-and-effect relationship between past and present events, recognize patterns of interactions, and understand the impact of events in the United States within an interconnected world. United States History Since 1890 examines the emergence of the United States as a world power to the present. Students will examine the political, economic, geographic, social, and cultural development of the United States of America from the late nineteenth century into the twenty-first century. United States History Since 1890 references the eras and time periods from The National Center for History in the Schools.

**471000 WORLD HISTORY SINCE 1450****[ADE CURRICULUM FRAMEWORKS](#)****TERM: YEAR CREDIT: 1**

World History 9-12 provides an in-depth study of the history of human society from Era 6: Emergence of First Global Age 1450-1770 to Era 9: Contemporary World since 1945. World History is designed to assist students in understanding the human condition, how people and countries of the world have become increasingly interconnected across time and space, and the ways different people view the same event or issue from a variety of perspectives. This course develops an understanding of the historical roots of current world issues, especially as they pertain to international/global relations. It requires an understanding of world cultures and civilizations, including an analysis of important ideas, social and cultural values, beliefs, and traditions. Knowledge of past achievements and failures of different peoples and nations provides citizens of the 21st century with a broader context within which to address the many issues facing our nation and the world. World History references the eras and time periods from The National Center for History in the Schools.

472000 CIVICS**[ADE CURRICULUM FRAMEWORKS](#)****TERM: FALL & SPRING CREDIT: .5**

The focus of Civics is the application of civic virtues and democratic principles and investigation of problem solving in society. This course provides a study of the structure and functions of federal, state, and local government. Civics also examines constitutional principles, the concepts of rights and responsibilities, the role of political parties and interest groups, and the importance of civic participation in the democratic process.

474300 ECONOMICS**[ADE CURRICULUM FRAMEWORKS](#)****TERM: FALL & SPRING CREDIT: .5**

One-semester Economics for Grades 9-12 emphasizes economic decision making. Students will explore the interrelationships among consumers, producers, resources, and labor as well as the interrelationships between national and global economies. Additionally, students will examine the relationship between individual choices and the direct influence of these choices on occupational goals and future earning potential.

474400 PSYCHOLOGY**[ADE CURRICULUM FRAMEWORKS](#)****TERM: FALL & SPRING CREDIT: .5**

Psychology is a social studies elective course that introduces students to the science of behavior and mental processes. It includes an overview of the history of psychology as well as an opportunity to study individual and social psychology and how the knowledge and methods of psychologists are applied to the solution of human problems. The content of this course includes human development; biological bases of behavior; sensation and perception; learning, memory, and cognition; behavior patterns; and psychological disorders and their treatments. This course focuses on practical everyday application of the content.

474500 SOCIOLOGY**[ADE CURRICULUM FRAMEWORKS](#)****TERM: FALL CREDIT: .5**

Sociology consists of two nine weeks units. This course introduces students to the social systems that are the foundation of society. An emphasis is placed on culture, social status, social institutions, and social problems, as well as resulting behaviors. Using the tools and techniques of sociologists, students will examine the causes, consequences, and possible solutions for various social issues. Students will read major sociological theorists as well as consider how sociologists approach issues.

474600 WORLD GEOGRAPHY**[ADE CURRICULUM FRAMEWORKS](#)****TERM: SPRING CREDIT: .5**

World Geography deepens geographic reasoning, knowledge, and skills as students focus on spatial relationships, places, regions, and human systems. This course emphasizes the interaction of humans and their physical and cultural environments. Students will use spatial and environmental perspectives and available geospatial technologies to analyze and interpret a variety of geographic representations, pictorial and graphic evidence, and data. This type of geographic inquiry helps students understand and appreciate their own place in the world and fosters curiosity about Earth's wide diversity of environments and cultures.

**AGRICULTURE, FOOD and NATURAL RESOURCES CLUSTER****AGRIBUSINESS SYSTEMS PROGRAM OF STUDY**

491030 AGRICULTURAL BUSINESS – PENDING APPROVAL **ACE CURRICULUM FRAMEWORKS** **TERM: YEAR** **CREDIT: 1** **GRADE LEVEL: 10-12**

This course covers the principles of agribusiness including ways of doing business in a free market economic system, entrepreneurship, business start-up, business plans, management, facility needs, legal aspects and tax responsibilities, personnel, and ethics.

Does course count in required 38 units and, if yes, how: Yes, Career & Technical Does course count in the 22 units required for graduation: Yes

ARTS, AUDIO VISUAL, TECHNOLOGY and COMMUNICATIONS CLUSTER**PHOTOGRAPHY PROGRAM OF STUDY**

494350 FUNDAMENTALS OF PHOTOGRAPHY **ACE CURRICULUM FRAMEWORKS** **TERM: YEAR** **CREDIT: 1** **GRADE LEVEL: 9-12**

This core introductory program is designed to provide practical knowledge and skill in preparation for a career in photography.

Does course count in required 38 units and, if yes, how: Yes, Career & Technical Does course count in the 22 units required for graduation: Yes

494370 INTERMEDIATE PHOTOGRAPHY **ACE CURRICULUM FRAMEWORKS** **TERM: YEAR** **CREDIT: 1** **GRADE LEVEL: 10–12**

This core production based program is designed to provide the second year photography student with fine-tuned knowledge and skills.

Does course count in required 38 units and, if yes, how: Yes, Career & Technical Does course count in the 22 units required for graduation: Yes

Prerequisite: Fundamentals of Photography

494380 ADVANCED PHOTOGRAPHY **ACE CURRICULUM FRAMEWORKS** **TERM: YEAR** **CREDIT: 1** **GRADE LEVEL: 11-12**

This independent production based program is designed to provide the advanced photography student with practical knowledge and highly advanced skills for a comprehensive career in photography.

Does course count in required 38 units and, if yes, how: Yes, Career & Technical Does course count in the 22 units required for graduation: Yes

Prerequisite: Intermediate of Photography

FINANCE CLUSTER**ACCOUNTING PROGRAM OF STUDY**

492120 COMPUTERIZED BUSINESS APPLICATIONS **ACE CURRICULUM FRAMEWORKS** **TERM: YEAR** **CREDIT: 1** **GRADE LEVELS: 9-12**

Computerized Business Applications is a two-semester course designed to prepare students with an introduction to business applications that are necessary to live and work in a technological society. Emphasis is given to hardware, concepts, and business uses of applications. The business applications covered are word processing, database, spreadsheet, telecommunications, presentation, and Web page design. This course will also meet the one unit required in the Standards for Computer Applications.

Does course count in required 38 units and, if yes, how: Yes, Career & Technical Does course count in the 22 units required for graduation: Yes

492100 COMPUTERIZED ACCOUNTING I **ACE CURRICULUM FRAMEWORKS** **TERM: YEAR** **CREDIT: 1** **GRADE LEVELS: 10-12**

Computerized Accounting I is a two-semester course with emphasis on basic accounting principles as they relate to both manual and computerized financial systems. Instruction is on an integrated basis using computers and electronic calculators as the relationships and processes of manual and computerized accounting are presented. Entry-level skills in the accounting occupations can be attained.

**492110 COMPUTERIZED ACCOUNTING II** [ACE CURRICULUM FRAMEWORKS](#) **TERM: YEAR** **CREDIT: 1** **GRADE LEVELS: 11-12**

Computerized Accounting II is a two-semester course designed to provide students with the knowledge, understanding, and skill necessary for successful careers in accounting. Partnership as well as departmental, corporate, and cost accounting systems are components of the course. Emphasis is given to the computerized/automated functions in accounting. **Prerequisite:** Computerized Accounting I

491990 FINANCIAL LITERACY [ACE CURRICULUM FRAMEWORKS](#) **TERM: FALL & SPRING** **CREDIT: .5** **GRADE LEVELS: 10-12**

This is a one-semester course designed to increase financial literacy and prepare students to successfully manage financial resources. This course also focuses on the individual's role and financial responsibilities as a student, citizen, consumer, and active participant in the business world. Emphasis is also placed also on activities and competitions within career technical student organizations (i.e., FBLA, FCCLA, and DECA).

HEALTH SCIENCE CLUSTER**MEDICAL PROFESSIONS PROGRAM OF STUDY****494050 FOUNDATIONS OF SPORTS MEDICINE** [ACE CURRICULUM FRAMEWORKS](#) **TERM: YEAR** **CREDIT: 1** **GRADE LEVELS: 9-12**

This course provides students with a general overview of sports medicine and its history from the perspective of the healthcare community that includes injury prevention, treatment, rehabilitation, psychosocial, and administration concerns. Students will gain an understanding of sports medicine and the role it plays in the athletic community.

495290 PATHOLOGY **TERM: SPRING** **CREDIT: .5** **GRADE LEVELS: 9-12**

This course is devoted to the exploration of human pathology. Pathology is the branch of medical science that studies the causes, nature, and effects of diseases. This course of study begins with an introduction to pathology terminology, predisposing factors of diseases, diagnosis, prognosis, and disease treatments. Following the introduction, the course proceeds into a study of the immune system, then goes into infectious diseases and their transmission. Other types of diseases, such as genetic disorders, cancer, and reproductive pathology are also studied.

Does course count in required 38 units and, if yes, how: Yes, Career & Technical Does course count in the 22 units required for graduation: Yes

Recommended for student success: This course is designed for students who have an interest in medical topics and who enjoy science. Students should have completed one semester of Biology, Human Anatomy or Medical Terminology prior to enrolling.

495300 HUMAN ANATOMY AND PHYSIOLOGY [ACE CURRICULUM FRAMEWORKS](#) **TERM: YEAR** **CREDIT: 1** **GRADE LEVELS: 9-12****CAREER TECHNICAL CREDIT ONLY - DOES NOT FULFILL A SCIENCE CREDIT**

This full year course provides an introduction to Human Anatomy and Physiology, exploring the structure and function of human body parts and how they function together. It also explores what happens when these parts do not function correctly. It begins with a study of anatomical terms and organization of the human body, and then proceeds to body chemistry, cells, cellular metabolism, and tissues. After this, it continues on to a study of bones and muscles, then to various other body systems.

Does course count in required 38 units and, if yes, how: Yes, Career & Technical Does course count in the 22 units required for graduation: Yes

Prerequisite: Students should have credit for both semesters of Biology

495320 HUMAN BEHAVIOR AND DISORDERS [ACE CURRICULUM FRAMEWORKS](#) **TERM: SPRING** **CREDIT: .5** **GRADE LEVELS: 9-12**

This course focuses on normal behavior and personality, abnormal behavior and personality, and behavior disorders and the therapies used to treat those disorders and abnormalities.

Does course count in required 38 units and, if yes, how: Yes, Career & Technical Does course count in the 22 units required for graduation: Yes

Prerequisite: Abnormal Psychology

495350 FOUNDATIONS OF HEALTH CARE [ACE CURRICULUM FRAMEWORKS](#) **TERM: YEAR** **CREDIT: 1** **GRADE LEVELS: 9-12**

This course replaces Introduction to Medical Professions and Medical Procedures. A detailed course description will be updated when the ACE Frameworks are released.

Does course count in required 38 units and, if yes, how: Yes, Career & Technical

Does course count in the 22 units required for graduation: Yes

495360 MEDICAL TERMINOLOGY

ACE CURRICULUM FRAMEWORKS

TERM: FALL & SPRING CREDIT: .5

GRADE LEVELS: 9-12

Terminology is a one semester course that assists students in developing the language used for communication in the health care profession.

Does course count in required 38 units and, if yes, how: Yes, Career & Technical

Does course count in the 22 units required for graduation: Yes

Prerequisite: Biology

495370 ABNORMAL PSYCHOLOGY

ACE CURRICULUM FRAMEWORKS

TERM: FALL CREDIT: .5

GRADE LEVELS: 9-12

This course provides a basic survey of maladaptive human behavior. Major psychological disorders, their causes, symptom behaviors, cultural influences, and relevant treatment approaches are discussed. Included topics are historical medical background, perspectives of treatment of the mentally ill, fundamental definitions, causes of anxiety disorders, disorders of mood, personality disorders, disorders of thought, including schizophrenia, substance-related disorders, and domestic violence. Legal, ethical, and social issues relating to the medical professional's role in treating psychological disorders are explored.

Does course count in required 38 units and, if yes, how: Yes, Career & Technical

Does course count in the 22 units required for graduation: Yes

HOSPITALITY and TOURISM CLUSTER

HOSPITALITY AND TOURISM PROGRAM OF STUDY

492260 TOURISM INDUSTRY MANAGEMENT

ACE CURRICULUM FRAMEWORKS

TERM: YEAR CREDIT: 1

GRADE LEVELS: 9-12

The content includes but is not limited to customer service, management and supervisory development, management theory, decision making, organization, communications, human relations, leadership training, personnel training, travel counseling, reservationists, ticketing, tour development, security, sales, travel and tourism accounting, marketing, and convention management, applicable local, state, and federal laws and asset management.

Does course count in required 38 units and, if yes, how: Yes, Career & Technical

Does course count in the 22 units required for graduation: Yes

Prerequisites: Computer Applications I and II (492490, 492500), or Computerized Business Applications (492120), or Technology Design Applications (460100)

492230 ARKANSAS HOSPITALITY AND TOURISM

ACE CURRICULUM FRAMEWORKS

TERM: SPRING CREDIT: .5

GRADE LEVELS: 9-12

Arkansas Tourism is a one-semester course designed to familiarize students with Arkansas careers in hospitality and the opportunities available to promote travel and tourism in the state. Emphasis will be on the food industry, transportation industry, lodging industry, and tourist attractions within the various geographical locations in the state.

Does course count in required 38 units and, if yes, how: Yes, Career & Technical

Does course count in the 22 units required for graduation: Yes

Prerequisites: Computer Applications I and II (492490, 492500), or Computerized Business Applications (492120), or Technology Design Applications (460100)

LAW, PUBLIC SAFETY, SECURITY and CORRECTIONS CLUSTER

CRIMINAL JUSTICE PROGRAM OF STUDY

494610 CRIMINAL LAW

ACE CURRICULUM FRAMEWORKS

TERM: YEAR CREDIT: 1

GRADE LEVELS: 9-12

This course emphasizes the study of substantive criminal law. Selected crimes most likely to be dealt with by the criminal justice professional are explored through discussion, where applicable, of the English Common Law precedents, general modern application and specific Arkansas Criminal Code.

Does course count in required 38 units and, if yes, how: Yes, Career & Technical

Does course count in the 22 units required for graduation: Yes

**494620 INTRODUCTION TO CRIMINAL JUSTICE [ACE CURRICULUM FRAMEWORKS](#) TERM: YEAR CREDIT: 1 GRADE LEVELS: 9-12**

This course provides the historical background of the agencies that compose the criminal justice system. It focuses on the development of justice and law, crime and punishment, the administration of laws, the agencies' functions, career orientation and public relations.

Does course count in required 38 units and, if yes, how: Yes, Career & Technical Does course count in the 22 units required for graduation: Yes

590100 FORENSIC SCIENCE AND THE LAW TERM: YEAR CREDIT: 1 GRADE LEVEL 10-12

This is an introductory level course with an emphasis placed on how forensic science is used in conjunction with the law and the legal system. The course will provide a brief history and development of forensic science and how forensic science functions within the legal system of today. The course provides an overview of a crime scene, DNA, trace evidence, aspects of fire and explosions, fingerprints, firearms, and document examination. Upon completion the student will have a general understanding of career opportunities and responsibilities that focus on Forensic Science and the Law.

Does course count in required 38 units and, if yes, how: No Does course count in the 22 units required for graduation: Yes

590110 INTRODUCTION TO CAREERS IN LAW, PUBLIC SAFETY AND SECURITY TERM: FALL CREDIT: .5 GRADE LEVEL 9-12

This is an introductory level course designed to provide an overview of careers in Law, Public Safety, Corrections, and Security. This course will cover careers in each pathway, ethical issues related to each career as well as necessary education requirements. The students will gain knowledge and skills, both verbally and in writing concerning issues related to these careers. Upon completion of this course, students will have a general understanding of career opportunities and responsibilities in each pathway.

Does course count in required 38 units and, if yes, how: No Does course count in the 22 units required for graduation: Yes

590110 LAW AND ORDER: CAREER INTENT TERM: FALL & SPRING CREDIT: .5 GRADE LEVEL 9-12

This course will provide the student with an overview of the legal system in the United States including how the legal system works from the federal, state, and local levels. This legal services pathway course will include an introduction to constitutional, civil, evidentiary and administrative law.

Does course count in required 38 units and, if yes, how: No Does course count in the 22 units required for graduation: Yes

590110 ARKANSAS LEGAL TERM: SPRING CREDIT: .5 GRADE LEVEL 9-12

This instructional program prepares individuals to perform duties within the legal services pathway and includes an overview of the Arkansas judicial and legislative system.

Does course count in required 38 units and, if yes, how: Yes, Career & Technical Does course count in the 22 units required for graduation: Yes

Prerequisite: Students MUST have received credit for Law and Order: Career Intent to enroll in Arkansas Legal.

MARKETING, SALES, and SERVICE CLUSTER**MARKETING TECHNOLOGY & RESEARCH PROGRAM OF STUDY****492190 FASHION MERCHANDISING [ACE CURRICULUM FRAMEWORKS](#) TERM: SPRING CREDIT: .5 GRADE LEVELS: 9-12**

Fashion Merchandising is a one-semester course designed to offer an overview of the fashion industry. It provides the foundation in preparing students for a wide range of careers available in the different levels of the fashion industry. Emphasis is given to historical development, textiles, manufacturers, merchandising, domestic and foreign markets, accessories, and retailing.

Does course count in required 38 units and, if yes, how: Yes, Career & Technical Does course count in the 22 units required for graduation: Yes

492330 MARKETING [ACE CURRICULUM FRAMEWORKS](#) TERM: YEAR CREDIT: 1 GRADE LEVELS: 11-12

Marketing is a two-semester course designed to provide students with the fundamental concepts, principles, skills, and attitudes common to the field of marketing.

Instruction focuses on market types, market analysis, consumer types, planning, promotion, buying, pricing, distribution, finance, trends, and careers.

Does course count in required 38 units and, if yes, how: Yes, Career & Technical

Does course count in the 22 units required for graduation: Yes

492640 SPORTS AND ENTERTAINMENT MARKETING [ACE CURRICULUM FRAMEWORKS](#) **TERM: FALL CREDIT: .5 GRADE LEVELS: 9-12**

Sports and Entertainment Marketing is a one-semester course designed to provide students with an understanding of marketing concepts, foundations, and functions as they relate to career opportunities in the growing area of sports and entertainment. Instruction will focus on public relations and publicity, event planning and marketing, sponsorship, venue design, concessions, risk management, product planning, licensing, ticket sales and distribution.

Does course count in required 38 units and, if yes, how: Yes, Career & Technical

Does course count in the 22 units required for graduation: Yes

492730 NOBLE IMPACT 101 **PENDING APPROVAL** [ACE CURRICULUM FRAMEWORKS](#) **TERM: YEAR CREDIT: 1 GRADE LEVELS: 9-12**

ONLY AVAILABLE IN THE MORNING PERIODS

Noble 101 is an introductory course for the Noble Impact program of study, which engages students at the intersection of entrepreneurship and public service. Industry concepts and Silicon Valley case studies are used to foster collaboration and competition with community events, i.e. [High School Startup Day](#). The understanding of social-emotional intelligence (SEL) is central to the curriculum and promotes the primary skills of listening, storytelling, and reflecting. The course will include guest speakers from for-profit companies and non-profit organizations who will share their personal journey. Students will connect with one another through their personalized [my.nobleimpact.org](#) platform, which will provide an avenue to capture the classroom experiences while building social emotional competencies, for example - [Andrew Rickard](#). Each semester will end with a culminating event to connect students across the state and upon completion of the Noble 101 course, students will have increased their access and opportunities throughout their local and statewide community.

TRANSPORTATION, DISTRIBUTION, AND LOGISTICS CLUSTER

AVIATION FLIGHT PROGRAM OF STUDY

590090 FUNDAMENTALS OF FLIGHT **DOES NOT SATISFY ACT 1280** **TERM: YEAR CREDIT: 1 GRADE LEVELS: 10-12**

This course, the first in a series of three, will introduce students to the field of aviation, with special emphasis placed on becoming a pilot. This course will introduce students to different professions a pilot could pursue. It will also introduce: aircraft structure, principles of flight, flight controls, basic aerodynamics, and various introductory flight maneuvers. A flight training device or required software will be used to provide practical exposure to flight maneuvers.

590090 AIRPORTS, AIRSPACE, AND WEATHER **PENDING APPROVAL** **DOES NOT SATISFY ACT 1280** **TERM: YEAR CREDIT: 1 GRADE LEVELS: 10-12**

The second course in a series of three will introduce students to aircraft systems, aeronautical charts, airport structure, the national airspace system, basic weather theory, and aviation weather services. Flight maneuvers will be continued and a flight training device will be used to provide practical exposure to the flight maneuvers.

Prerequisite: Fundamentals of Flight

CAREER PREPARATION – may count as an elective for any CTE Program of Study

493880 COLLEGE AND CAREER READINESS [ACE CURRICULUM FRAMEWORKS](#) **TERM: FALL CREDIT: .5 GRADE LEVEL 9-12**

College and Career Readiness is a one-semester (.5 credit) course that can count toward completer status for any Career and Technical Education Program of Study. It is designed to provide the student with the necessary skills to evaluate fundamental employment ready skills and what they need from education to be prepared to refine their choices through a decision-making process and master the skills most needed by 21st century employers. The course is recommended to be taken the first semester of the senior year to allow counselors working with seniors to prepare for graduation and college preparation. Students will assess labor market information, personal academic and career ready potential, and make application to postsecondary institutions. This course will use the Career Ready 101 curriculum to prepare students to take the ACT WorkKeys assessments to earn the Arkansas Career Readiness Certificate.

Does course count in required 38 units and, if yes, how: Yes, Career & Technical

Does course count in the 22 units required for graduation: Yes

493900 CAREER READINESS

ACE CURRICULUM FRAMEWORKS

TERM: SPRING CREDIT: .5

GRADE LEVEL 9-12

Career Readiness is a one-semester (.5 credit) course that can count toward completer status for any Career and Technical Education Program of Study. It is designed to provide the student with the necessary skills to evaluate who they are, what they need in a career, research postsecondary options and career information. The major goal of Career Readiness is to engage students to develop characteristics and skills employers most desire. Students will evaluate personal traits for a better understanding of self in their pursuit of finding a meaningful, fulfilling and rewarding career then compare their traits to the characteristics employers expect for the purpose of identifying and developing the lacking skills. This course uses the Career Ready 101 curriculum to teach the 21st Century SCANS skills but does not include the WorkKeys skills from College and Career Readiness. This course supplements 493880.

Does course count in required 38 units and, if yes, how: Yes, Career & Technical

Does course count in the 22 units required for graduation: Yes

493910 CAREER READY 101 ONLINE

ACE CURRICULUM FRAMEWORKS

TERM: FALL & SPRING CREDIT: .5

GRADE LEVEL 9-12

Career Ready 101 Online is a (.5 credit) course option to 493880 and 493900 that can count as an elective to complete any Career and Technical Education Program of Study. The major goal of Career Ready 101 Online is to engage students in digital learning to meet ACT 1280 and to prepare for postsecondary education. This course contains the CR101 curriculum WorkKeys Skills--Locating Information, Applied Math and Reading for Information found in the College and Career Readiness Course (493880). It also contains key Career Skills found in the Career Readiness Course (493900). It is designed to provide students with the necessary skills to evaluate who they are, what they need in a career, and research postsecondary options and career information. This course is an alternative option for 493880 and 493900 and should not be taken in conjunction with either of the two since it is duplicative in the Career Ready 101 curriculum in many areas.

CONCURRENT CREDIT COURSES

ALL OF THE COURSES ARE FOR CONCURRENT CREDIT. A 3 CREDIT HOUR COLLEGE COURSE EQUALS ONE HIGH SCHOOL CREDIT

Classes are available to high school students who meet the admission requirements and prerequisites for Virtual Arkansas, ATU, and UAM, as well as prerequisites for the specific course.

ARKANSAS TECH UNIVERSITY FALL 2017 – ATU accepts ACT, Aspire and Accuplacer for admission.

514000 CONCURRENT CREDIT ORAL COMMUNICATION ATU COMM 2003 PUBLIC SPEAKING CREDIT: COLLEGE: 3 HS: 1

Fundamentals of composition, delivery, and logical reasoning. Effective utilization of basic visual aids will be included.

519930 CONCURRENT CREDIT ENGLISH 11 ATU ENGL 1013 COMPOSITION I CREDIT: COLLEGE: 3 HS: 1

A review of grammar, introduction to research methods, and practice in writing exposition using reading to provide ideas and patterns. Note: A grade of C or better must be earned in each of the two composition courses used to satisfy the general education requirement of English/Communication.

519940 CONCURRENT CREDIT ENGLISH 12 ATU ENGL 1013 COMPOSITION I CREDIT: COLLEGE: 3 HS: 1

A review of grammar, introduction to research methods, and practice in writing exposition using reading to provide ideas and patterns. Note: A grade of C or better must be earned in each of the two composition courses used to satisfy the general education requirement of English/Communication.

539900 CONCURRENT CREDIT BEYOND ALGEBRA II ATU MATH 1113 COLLEGE ALGEBRA CREDIT: COLLEGE: 3 HS: 1

Exponents and radicals, introduction to quadratic equations, systems of equations involving quadratics, ratio, proportion, variation, progressions, the binomial theorem, inequalities, logarithms, and partial fractions. Note: A grade of C or better must be earned in this course if being used to satisfy the general education mathematics requirement.

539900 CONCURRENT CREDIT BEYOND ALGEBRA II ATU MATH 1003 COLLEGE MATH CREDIT: COLLEGE: 3 HS: 1

The course focuses upon the mathematics of contemporary life. Topics include Planning and Scheduling schemes from Management Science, Data Analysis, Probability and Inference from Statistics, Voting Systems and Division Schemes from the science of Social Choice, and various Growth Models. Note: A grade of C or better must be earned in this course if being used to satisfy the general education mathematics requirement.

549900 CONCURRENT CREDIT FOREIGN LANGUAGE ATU SPAN 1013 BEGINNING SPANISH I CREDIT: COLLEGE: 3 HS: 1

Training in the elements of Spanish communication (speaking and writing) and comprehension (listening and reading) within a variety of cultural contexts.

549900 CONCURRENT CREDIT FOREIGN LANGUAGE ATU SPAN 2013 INTERMEDIATE SPANISH I CREDIT: COLLEGE: 3 HS: 1

Development of the language skills necessary for communication (speaking and writing) and comprehension (listening and reading) skills to increase proficiency in the language at the intermediate level within a variety of cultural contexts.

559000 CONCURRENT CREDIT FINE ARTS ATU ART 2123 EXPERIENCING ART CREDIT: COLLEGE: 3 HS: 1

This course is designed to provide a background in art and the related processes so that a student may develop powers of observation and thereby respond to a work of art.

579910 CONCURRENT CREDIT WORLD HISTORY ATU HIST 1503 WORLD HIST TO 1500 CREDIT: COLLEGE: 3 HS: 1

The history of humanity from prehistoric times to the sixteenth century.

CONCURRENT CREDIT COURSES

[579920](#) CONCURRENT CREDIT AMERICAN HISTORY ATU HIST 2003 U.S. HIST TO 1877 CREDIT: COLLEGE: 3 HS: 1

The study of the development of the American nation to the Civil War and Reconstruction Era.

ARKANSAS TECH UNIVERSITY SPRING 2018 – ATU accepts ACT, Aspire, and Accuplacer for admission.

[514000](#) CONCURRENT CREDIT ORAL COMMUNICATION ATU COMM 2003 PUBLIC SPEAKING CREDIT: COLLEGE: 3 HS: 1

Fundamentals of composition, delivery, and logical reasoning. Effective utilization of basic visual aids will be included.

[519930](#) CONCURRENT CREDIT ENGLISH 11 ATU ENGL 1023 COMPOSITION II CREDIT: COLLEGE: 3 HS: 1

A continuation of ENGL 1013 with readings in poetry, fiction, and drama. Note: A grade of C or better must be earned in each of the two composition courses used to satisfy the general education requirement of English/Communication.

[519940](#) CONCURRENT CREDIT ENGLISH 12 ATU ENGL 1023 COMPOSITION II CREDIT: COLLEGE: 3 HS: 1

A continuation of ENGL 1013 with readings in poetry, fiction, and drama. Note: A grade of C or better must be earned in each of the two composition courses used to satisfy the general education requirement of English/Communication.

[539900](#) CONCURRENT CREDIT BEYOND ALGEBRA II ATU MATH 1113 COLLEGE ALGEBRA CREDIT: COLLEGE: 3 HS: 1

Exponents and radicals, introduction to quadratic equations, systems of equations involving quadratics, ratio, proportion, variation, progressions, the binomial theorem, inequalities, logarithms, and partial fractions. Note: A grade of C or better must be earned in this course if being used to satisfy the general education mathematics requirement.

[549900](#) OTHER CONCURRENT CREDIT FOREIGN LANGUAGE ATU SPAN 1023 BEGINNING SPANISH II CREDIT: COLLEGE: 3 HS: 1

Continued training in basic Spanish communication (speaking and writing) and comprehension (listening and reading) skills to increase proficiency in the language within a variety of cultural contexts.

[549900](#) OTHER CONCURRENT CREDIT FOREIGN LANGUAGE ATU SPAN 2023 INTERMEDIATE SPANISH II CREDIT: COLLEGE: 3 HS: 1

Further development of the language skills necessary for communication (speaking and writing) and comprehension (listening and reading) skills to provide mastery of the fundamental tools in a variety of cultural contexts.

[559000](#) CONCURRENT CREDIT FINE ARTS ATU ART 2123 EXPERIENCING ART CREDIT: COLLEGE: 3 HS: 1

This course is designed to provide a background in art and the related processes so that a student may develop powers of observation and thereby respond to a work of art.

[579910](#) CONCURRENT CREDIT WORLD HISTORY ATU HIST 1513 WORLD HIST SINCE 1500 CREDIT: COLLEGE: 3 HS: 1

The history of humanity from the sixteenth century to the present.

[579920](#) CONCURRENT CREDIT AMERICAN HISTORY ATU HIST 2013 U.S. HIST SINCE 1877 CREDIT: COLLEGE: 3 HS: 1

The study of the development of the American nation since the Civil War and Reconstruction Era.

CONCURRENT CREDIT COURSES

UNIVERSITY OF ARKANSAS-MONTICELLO FALL 2017 – UAM accepts ACT, Aspire and Accuplacer for admission.

514000 CONCURRENT CREDIT ORAL COMMUNICATION **UAM COMM 1023** **PUBLIC SPEAKING** **CREDIT: COLLEGE: 3 HS: 1**

Principles of audience analysis, collection of materials, and outlining. Emphasis on careful preparation of speech and delivery.

519930 CONCURRENT CREDIT ENGLISH 11 **UAM ENGL 1013** **COMPOSITION I** **CREDIT: COLLEGE: 3 HS: 1**

Writing course stressing reading skills as a basis for effective writing.

519940 CONCURRENT CREDIT ENGLISH 12 **UAM ENGL 1013** **COMPOSITION I** **CREDIT: COLLEGE: 3 HS: 1**

Writing course stressing reading skills as a basis for effective writing.

539900 CONCURRENT CREDIT BEYOND ALGEBRA II **UAM MATH 1003** **SURVEY OF MATHEMATICS** **CREDIT: COLLEGE: 3 HS: 1**

Techniques of problem solving, topics from set theory, number theory, logic, consumer mathematics, probability, and statistics.

539900 CONCURRENT CREDIT BEYOND ALGEBRA II **UAM MATH 1043** **COLLEGE ALGEBRA** **CREDIT: COLLEGE: 3 HS: 1**

Functions, graphs, quadratic functions, polynomial functions, rational functions, exponential and logarithmic functions, systems of equations, applications of algebra, matrices, and the binomial theorem.

549900 OTHER CONCURRENT CREDIT FOREIGN LANGUAGE **UAM SPAN 1003** **ELEMENTARY SPANISH I** **CREDIT: COLLEGE: 3 HS: 1**

An introduction to the essentials of the Spanish language. It is designed to develop the four basic language skills: listening, speaking, reading, and writing. It emphasizes standard pronunciation, functional syntactical structures, vocabulary, and idiomatic expressions, as well as an awareness of Hispanic cultures.

559000 CONCURRENT CREDIT FINE ARTS **UAM ART 1053** **ART APPRECIATION** **CREDIT: COLLEGE: 3 HS: 1**

A basic introductory course in man's cultural heritage through the visual arts.

579910 CONCURRENT CREDIT WORLD HISTORY **UAM HIST 1013** **SURVEY OF CIVILIZATION I** **CREDIT: COLLEGE: 3 HS: 1**

Civilization to 1660. European and world development emphasizing cultural, economic, religious, and political changes. Some attention is given to non western civilization.

579920 CONCURRENT CREDIT AMERICAN HISTORY **UAM HIST 2213** **AMERICAN HISTORY I** **CREDIT: COLLEGE: 3 HS: 1**

The growth of the United States from the discovery of America to 1876.

UNIVERSITY OF ARKANSAS-MONTICELLO SPRING 2018 – UAM accepts ACT, Aspire and Accuplacer for admission.

514000 CONCURRENT CREDIT ORAL COMMUNICATION **UAM COMM 1023** **PUBLIC SPEAKING** **CREDIT: COLLEGE: 3 HS: 1**

Principles of audience analysis, collection of materials, and outlining. Emphasis on careful preparation of speech and delivery.

519930 CONCURRENT CREDIT ENGLISH 11 **UAM ENGL 1023** **COMPOSITION II** **CREDIT: COLLEGE: 3 HS: 1**

Writing course emphasizing reading skills as a basis for effective writing. Documented term paper is required.

519940 CONCURRENT CREDIT ENGLISH 12 **UAM ENGL 1023** **COMPOSITION II** **CREDIT: COLLEGE: 3 HS: 1**

CONCURRENT CREDIT COURSES

Writing course emphasizing reading skills as a basis for effective writing. Documented term paper is required.

[539900](#) CONCURRENT CREDIT BEYOND ALGEBRA II UAM MATH 1043 COLLEGE ALGEBRA CREDIT: COLLEGE: 3 HS: 1

Functions, graphs, quadratic functions, polynomial functions, rational functions, exponential and logarithmic functions, systems of equations, applications of algebra, matrices, and the binomial theorem.

[549900](#) OTHER CONCURRENT CREDIT FOREIGN LANGUAGE UAM SPAN 1013 ELEMENTARY SPANISH II CREDIT: COLLEGE: 3 HS: 1

A continuation of the essentials of the Spanish language in Spanish 1003. It is structured to develop a solid foundation of the four basic language skills with major emphasis on the oral and written communicative skills and an understanding of Hispanic cultures.
